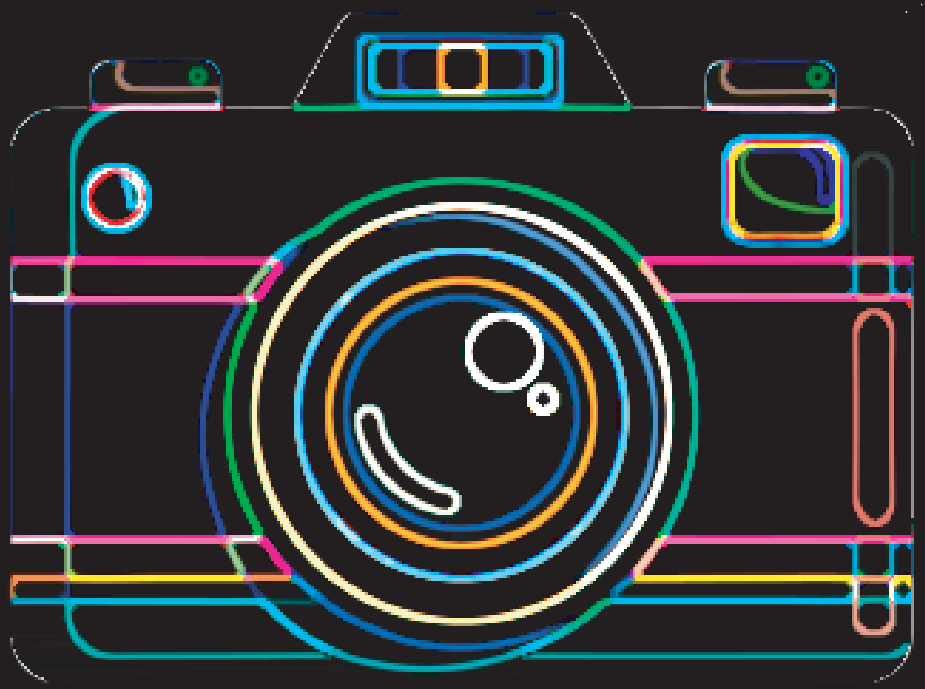
LEANDRO PHOTO NYC



STYLE GUIDE

PURPOSE

The goal of this project is to combine thematic photography with intentional web design to create a clear, accessible, and visually cohesive gallery that communicates ideas about identity and urban life in New York.

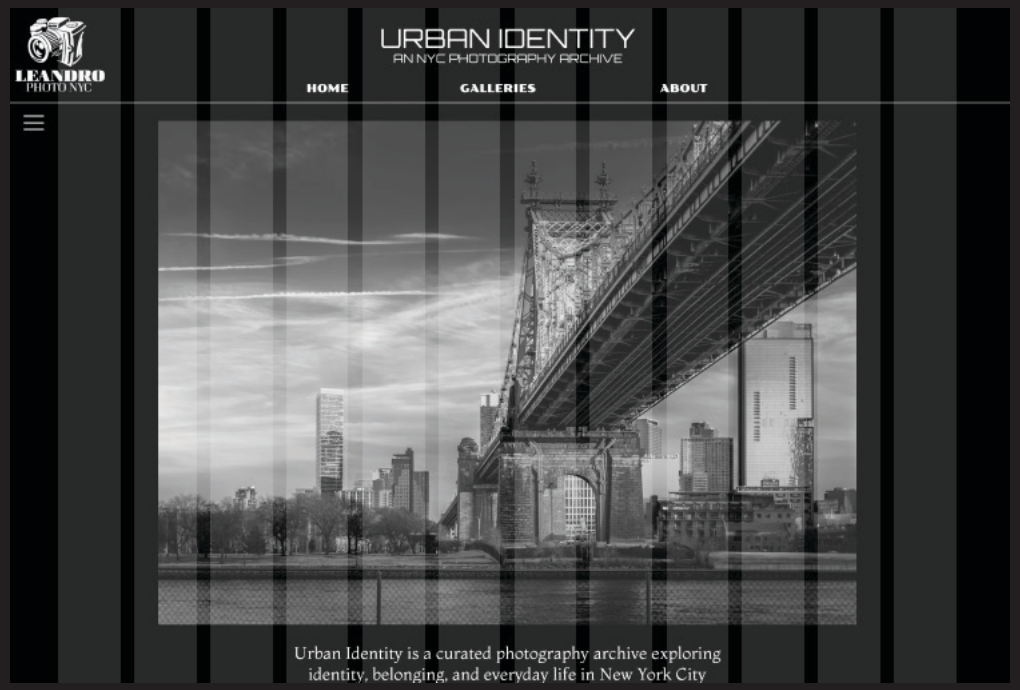
AUDIENCE

The audience for this website includes viewers interested in photography, urban culture, and digital design. It is intended for classmates, instructors, and general users who want to explore how everyday scenes in New York reflect themes of identity through a clear and accessible web layout.

GRID

The desktop grid is based on 12 columns with 80px margin and 20px gutters.

Desktop: 1440x1024 px



SPACING

Spacing is intentionally used to reflect the placement of photographs and typography.

The placement of imagery and text fields help provide consistency across every page.

Alignment is consistent on photograph placement, page titles and text fields.

COLOR PALATE

WHITE
HEX: #FFFFFF

BLACK
HEX: #000000
